Please do Exercise 0 again (fill the form)

- The Ministry of Education decided to control all the forms by itself, so I have to ask you to fill the form again
    - https://forms.gle/nCupqGxtgPQMEmZ29
- Fill all the questions in the form and you will get one extra point
    - Take a snapshot when you finish the form
    - Upload the snapshot to eeclass
- Due: 11/2 23:59:59

Review quizzes

- What is mean square error?
- What is R^2 score?
- What is the advantage and disadvantage of GD and SGD?
- What is gradient ascent/gradient descent?
- Why do we usually maximize log-likelihood function (instead of likelihood function)?
- What is logistic regression?
- What is the cross entropy loss (for logistic regression)?
